March 30th 2015

Dear Vicki Standen;

Mrs. Fike and I were reflecting today upon our wonderful community relationship with you and the Cool Cruisers, as well as the many benefits we have received from your organization. Your support has included funding for:

Significant increases in the volume and variety of remedial reading materials/incentives available to both students and staff for instructional support.

Creation of a novel I-Pad student station to supplement library (media) instruction and skill acquisition for students often lacking computer resources at home.

A variety and considerable quantity of school supplies for our students.
Clothing, such as student school uniform shirts and pants for those in despite need.

Peer Mediation shirts which highlight and advertised in-school for our newly initiated Peer Mediation Program for K -5 students.

An in-depth, Laws of Life Character Trait Program for school –wide and individual classroom/ student use covering 13 topics in DVD format.

Mentoring support materials for individual students to receive chess/checker sets which promote behavior/critical thinking skills acquisition.

In the coming year, your continued support may assist us in a school-wide Kindergarten initiative which will provide K students with a variety of critically essential new school year materials for a positive, enriching school year. We thank you again and look forward to our relationship growing and enduring in the future.

Sincerely,

Melanie Fike

Anthony Lettiere
